

## Clinic 2: What does it mean to be a Decision Quality Organisation?

AU4DM Decision Making Under Deep Uncertainty Workshop

05 March 2019

**Peter Naylor** Senior Decision Quality Consultant, Shell

## Decision Quality (DQ) myth buster

### DQ is not...

- New
- The decision itself
- Optional
- Arduous
- A tick in the box
- **Guaranteeing a good outcome**

### DQ is...

- Tried & tested
- A dashboard to assess whether you have done enough preparation to justify making a decision
- Essential for complex decisions involving risks & uncertainties
- Scalable & can save time
- An honest, unbiased conversation
- **Making a good outcome more likely**

# Barriers to DQ
